JEROME NEARLY READY

To Bring on His Application For Lunacy Commission.

New York, Feb. 25—Evelyn Nesbit Thaw, wife of the man who shot Stanford White for her sake, sadly needed the three days grace brought by the holiday from district attorney Jerome's searching cross-examination. This was indicated by the appearance of the young woman when she visited her husband in the Tombs Friday. So impressed was Harry Thaw himself by the change in his wife that he embraced her when she was brought to him and as if to give her encouragement, exclaimed:

"My dear, brave, little wife!"

Mrs. Thaw looked but a shadow of her former self and those who have seen her almost daily since the trial begun and who saw her Friday said the change was almost ghastly.

Mrs. Thaw's face looked gaunt, hollow and sickly. She seemed wearied and all but worn out physically but she tried to smile bravely at her husband's words.

That she is suffering severely under the ordeal is plainly apparent and some fears were expressed yesterday when her appearance was noted, that she might not be able to withstand the trying situation still before her. Judging from the progress of Mr. Jerome's cross-examination, so far as developed, he cannot possibly finish with the witness under two days.

Saturday reports are revived that Mr. Jerome is nearly ready to bring on his application for a lunacy commission to examine the defendant. The district attorney, it is said, has questioned Drs. J. T. Deemar and C. F. Bingamon, the Thaw family physicians, who were summoned as witnesses for Thaw, and from what he heard from them re-convinced that the strain has descended to Thaw and that he is now insane.

Pacific Battleship Squadron.

San Francisco, Feb. 25.—It is authoritatively although unofficially reported in local naval circles that the formation of a strong armored fleet on the Pacific coast will be inaugurated by the dispatching to this city at an early date of the battleships Indiana and Iowa. These two battleships will form the nucleus of the Pacific battleship squadron, which will be further strengthened by the addition of the new battleship Nebraska, now nearly completed at Seattle, and the battleships Wisconsin and Oregon, which are now being extensively overhauled at the puget sound naval station. These five battleships may be re-enforced during the next few months more from the Atlantic. It is said to be the policy of the navy department to unite the Asiatic fleet and the Pacific squadron one great fleet, its component vessels interchangeable and all under the command of one of the three vice admirals which it is thought congress will authorize at an early date.

Increased Pay for Engineers.

Louisville, Feb. 25—An agreement was reached Friday between the general adjustment committee of the Brotherhood of Locomotive Engineers, and B. M. Starks, general manager of the Louisville and Nashville railroad, whereby the engineers will receive an increase of about 10 per cent in wages, and about 30 per cent for over time, effective March 1. The increase will effect nearly 1,300 engineers of the system, and will amount to about $200,000 per year additional in salaries.

Coal Landed on Passengers.

Dubuque, Iowa, Feb. 25.—A combination coach and a loaded coal car of train No. 103 on the Chicago, Milwaukee and St. Paul narrow gauge between Bellevue and Cascade, jumped the tracks at a curve on a trestle over a small stream near Washington Mills and fell a distance of 40 feet, landing with the coal car on top of the coach, in which were ten passengers. The coach was completely wrecked and one passenger was killed, two fatally and seven seriously injured.

14 PERSONS ARE MISSING IN WRECK

Pennsylvania Special Wrecked; Many are Injured.

BRAKE RIGGING WAS THE CAUSE

A Number of Prominent Chicago People, Including Postmaster and Several Theatrical Managers Among the Injured.

Johnstown, Feb. 25.—The Pennsylvania Special, the fast 18 hour train on the Pennsylvania railroad between New York and Chicago, was wrecked at Black Diamond, Pa., seven miles east of Johnstown shortly after midnight. From forty to fifty persons were injured and 14 are reported as missing.

Many prominent Chicagoans were on the train all of whom were seriously injured. Among those injured were F. A. Busse, postmaster of Chicago, Samuel F. Nixon, of Nixon and Zimmerman, theatrical properties; T. D. Munger, manager LaSalle theatre, Chicago; Lightner Henderson, civil engineer, George S. Wood, Manager Colonial theatre, Chicago and J. J. Kern, ex-State's attorney of Chicago.

The train was running about forty miles an hour and was 35 minutes late. When rounding a sharp curve at Black Diamond the whole train swayed. The engine and smoking car remained on the tracks but the Pullman coaches left the rails and plunged over a sixty foot embankment.

All attempts to obtain information from the railroad officials were met with rebuffs at every hand and at an early hour Saturday, while it was reported that fifty four passengers were on the train when it left Altoona, only forty were said to have been accounted for. It is believed that the missing are dead in the wreckage in the river, into which the train plunged over an embankment near the scene of the Johnstown flood.

At an early hour Saturday morning this city was practically besieged by newspaper men on their way to the wreck. Trains were few and to reach the scene of the wreck it was necessary to take a ten mile journey four or more hours around the mountains. From the scene it was learned by telephone that the train was late going west. The engineer was trying to make up lost time.

The wreck was caused by what is termed by railroad men as an "unavoidable accident." The brake rigging on the first Pullman following the combination coach on the train dropped down and tore up the right rail for a distance of 300 yards. The engine and combination coach did not leave the rails, but the four Pullmans following down over the embankment to the river bank 100 feet below, overturning when they reached bottom.

"The eighteen hour train" travels at a high rate of speed, coming down the mountain. When the brake rigging fell it either stripped the heads off the bolts holding the rails to the ties or tore up the rails themselves.

Victim of Bomb Thrower.

Odessa, Feb. 25.—A bomb was thrown beneath the car of the chief of Police Colvin Gesseberg, as he was driving in the center of the city Saturday afternoon. The explosion of the bomb wrecked the carriage, severely injuring the chief of police and shattered the windows of all the houses in the vicinity. The would-be assassin escaped.

Fell Under the Train.

Lima, O., Feb. 23.—Thomas Purdy, aged 50, of Covington, O., who stepped in front of the Cincinnati, Hamilton and Dayton passenger train just as it started, died here. Purdy was caught under the pilot, but, though the wheels never touched him, internal injuries resulted from his fall. He was in the railway postal service.

MEXICAN WAR PENSION.

Has Been Voted for Widow of Stonewall Jackson.

Washington, D. C., Feb. 26—Mrs. Thomas J. Jackson, widow of General Stonewall Jackson, will in future receive a pension of $20 per month from the national government on account of services rendered by her husband, the noble confederate chieftain during the Mexican war. The bill was first introduced in the senate by Senator Overman and passed that body. On Friday it was passed by the house.

There was a good deal of interest in this pension bill. Mrs. Jackson is not in reduced circumstances, but those pushing the bill declared she did not have enough of the world's goods to support her as became the widow of Stonewall Jackson.

Congressman Nicholas Longworth, who is a member of the house committee on pensions, supported the bill actively. Mrs. Jackson now lives in Charlotte, N. C., and the delegation from North Carolina all interested themselves in her behalf.

Had the point been raised on the "loyalty test" the pension for Mrs. Jackson would probably have been defeated. Formerly the pension law held that only Mexican war veterans who served later in the civil war were entitled to pensions from the government, but the law is now silent on that point.

Serious Consequences Predicted.

London, Feb. 25.—The Daily Mail publishes a Rome dispatch which reports Prof. Matteucci, of the Vesuvius observatory as declaring that toward the end of March the substance of the new comet, discovered by Marchette will come in contact with the earth's atmosphere, with consequences probably dangerous to the world. The professor is of the opinion that the danger will be brief but it may be acute If the earth comes in collision with the comets tail, the earth's atmosphere may possibly cause ignition and life would be destroyed.

Suicide at Vienna.

Vienna, Ga., Feb. 25—Lewis Walton, a young farmer living about five miles of this place, shot and fatally wounded himself. He had been plowing all day in the field till just before the shooting, when he left his horse in the field, went to his room and there committed the act. The exact cause is not obtainable up to this time, but it is thought financial discouragement was the main cause. He was only a youth when he was married, having married at the age of 15, his wife being only 13 years old. He leaves a wife and two childen.

Wreck Survivors Rescued.

Hook of Holland, Holland, Feb. 25. In the early hours of the morning Saturday, the three remaining survivors were taken off the wreck of the steamer Berlin by the same life boat crew which has done such splendid work during the past forty eight hours. All three are women Frau Weinberger her sixteen year old nurse girl, Mina Ripler, and Fraulein Theile. This makes the number of saved fifteen out of the 143 who were on board the vessel.

Says Road Stole City Water.

Moultrie, Ga., Feb. 25.—The city of Moultrie has filed suit in the city court against the Georgia Northern Railway company claiming damages for about $11,000 for water used by the railroad company, unknown to the city until recently. The city charges that the railroad company secretly attached an underground pipe to one of the city's mains.

Texas Residence Dynamited.

Brownwood, Tex., Feb. 25.—The home of W. R. Cook was destroyed by dynamite and Verner Cook, a 16-year-old girl, was fatally injured. The charge of dynamite was placed directly under the window of the room in which the girl was steeping. It is not known by whom the deed was committed or for what reason.

SMALL POX ROUTS MISSOURI SOLONS

Member Stricken With Disease In the House.

CAPITOL IS TO BE FUMIGATED

Legislators Are Barred from Their Boarding Houses and the Greatest Confusion Reigns in Jefferson City, Capital of the "Show Me" State.

Jefferson City, Mo., Feb. 25.—Representative M. J. Saltz, of Phelps county, was taken down with smallpox while in his seat on the floor of the house Friday. Much commotion among the other members ensued. The chamber was fumigated.

The house of representatives Friday afternoon, after its hall had been fumigated by the state board of health, adjourned to 3 p. m. Monday because of the smallpox epidemic. A resolution adopted amid confusion and with but half of the members in their seats provided for the thorough fumigation of the capitol. The senate voted to work a few hours Friday afternoon and then to adjourn to Tuesday at 4 p. m.

Many boarding house keepers have refused to allow legislators to enter their homes, and Governor Folk offered the use of his mansion to those who are unable to obtain quarters elsewhere.

He Started Atlanta Riot.

Waco, Texas, Feb 25.—William Welch, an ex-Confederate soldier, 62 years of age, claiming Atlanta, Ga., as his home, is in custody here of Sheriff George W. Tilley. Welch admits that he was the man who fired the first shot in the big riot between the whites and negroes a few months ago in Atlanta. Welch says he is tired of dodging. He thinks that there is a large reward out for his apprehension. He has only one leg and one eye. He claims to have lost the other members in the civil war. At the Confederate Soldiers' Home it was stated that Welch left there in December last. Neither the chief of police nor the sheriff was aware that he had any connection with the riot in Atlanta, Ga.

Woman Fined $1,000.

Dayton, O., Feb. 25.—In order to break up the practice of aiding in the downfall of young girls, or contributing to their delinquency, Probate Judge Dale assessed a fine of $1,000 on Mrs. Mary J. White. A warning was given all who have been engaged in the pernicious business that similar fines would be imposed upon presentation of proof. Mrs. White was charged with renting rooms to Mary Eyler and Verona Keshner, aged 14, for immoral purposes. The girls are under a suspended sentence to the Industrial School.

Property Value Fixed.

Savannah, Ga., Feb. 25.—A jury in the United States court has decided that the value of the property at Brunswick taken by the government to install a quarantine plant is $12,500. This matter has been in dispute for some time, the former owners of the property valuing it at a greater value than did the government did. The jury's decree has fixed it at last.

Poisoned Drillers Will Die.

Steubenville, O., Feb. 25.—George M. and Bernard Briescoe, drillers in the McIntyre oil field, were mysteriously poisoned and will die. The sugar they used was found to contain traces of poison. It is thought it was put in the sugar last night by parties who broke into their shanty, but stole nothing.

Attempted Triple Murder.

Newark, N. J., Feb 25.—In a frenzy of anger, because his wife had accused him of being a bigamist, William Krueger shot and killed her, seriously wounding Mrs. Sebina Boice the wife of his adopted son, and then shot himself. He probably will die, but Mrs. Boice will recover.

LAST DAY OF THE BIBLE CONFERENCE

Fourth Annual Session Closed Sunday After a Glorious Success.

THE BIG HOUSE WAS CROWDED

Both Afternoon and Evening—Charles Crittenton, the Millionaire Evangelist, in Afternoon—Rev. George Stuart Preached in the Evening.

The closing service of the fourth annual session of the National Winter Bible Conference on Sunday evening was one of the most successful meetings ever held in the big tabernacle, which was filled to overflowing, every seat being occupied.

The meeting was opened by a half-hour song service, followed by the usual prayer. Dr. Clarence B. Strouse, founder of the Conference, and its president ever since it was organized, made a few impressive remarks, during which he said he thanked God that this was one of the most successful conferences yet held here, from every point of view. The Conference had been blessed with good, eloquent and earnest speakers who had divulged the word of God in a manner which is intended to be lasting.

Touching upon the financial end of the Conference, the speaker recited that, while the speakers had come to Gainesville at a great less price than they were worth, or they could have secured for their services elsewhere, there was naturally expense attached to the same, and asked that Dr. J. F. McKinstry, Jr., chairman of the Conference committee, address the congregation as regarded the financial condition of the venture, or upon anything else touching upon that line. Dr. McKinstry complied with the request, going into casual details of the aggregate expenses for the program, incidentals, etc., stating that the expense of the aggregate would be about $1,700, including some indebtedness from last year, and asked that Rev. George Stuart assist the committee in securing the necessary subscriptions. The work began, and in about twenty minutes the necessary amount was secured, when the meeting proceeded.

Rev. George R. Stuart delivered a most interesting sermon on Daniel, dwelling with eloquent emphasis upon the character of his subject, with modern comparisons. He spoke for forty-five minutes, not one of which was lacking of interest. Dr. Stuart is a fluent and convincing talker, and during his engagement here never failed to attract large congregations.

On Sunday afternoon Chas. N. Crittenton, the New York millionaire evangelist who has devoted nearly a quarter of a century of his time, and expended thousands of dollars in his efforts to rescue fallen girls and women throughout the country, addressed a good congregation. Mr. Crittenton, like Dr. Strouse, is in the work because he loves it, and because he feels it a duty to which God has called him. He is a good talker, and his work is appreciated by the Christian wold. He has probably accomplished more in the course for which he is working than any other man in the United States.

In all, the fourth annual Bible Conference was a glorious success, as it has accomplished great good in every way.

No Service This Week.

It has been the custom in former years to have the Christian Workers' Institute immedistely follow the Bible Conference; but owing to the fact that the city has just finished virtually a four-weeks' revival, it was deemed advisable to take a week's rest, hence the Institute and Chautauqua will be merged.

The Chautauqua, fuller mention of which will be made later, will begin next Monday, March 4.

LOOKING FOR HOMES.

Jolly Party of New York Prospectors Have Invaded Gainesville.

A jolly party of prospectors from Flushing, Long Island, N. Y., arrived in the city Monday, and expect to remain here for several days. The party is composed of I. J. Schumaker, I. Meiset, S. Merrill, Phil. Bach, F. Schumaker and Sylvester Fogarty.

The gentlemen visited Rocky Point in the afternoon, and will also inspect other sections of the county, more especially in the vicinity of Gainesville, with a view of locating and engaging in the trucking business. They appeared to be well pleased with what they have seen so far.

The service was well attended, many friends having come as a last mark of love and respect to the little girl, who was one of the sweetest in Gainesville. The Sun, with other friends, extends sincere sympathy to the bereaved parents.

INCREASE IN SALARIES.

Managers and Operators of W. U Telegraph Co. to Get More Pay.

"Jacksonville, Fla., Feb. 20. Manager Gainesville Office: Dear Sir—I am pleased to advise you that all managers and operators will be allowed an increase of ten per cent in their salaries from March 1st, 1907. Very truly yours, B. F. DILLON, Superintendent."

The above circular issued by the Western Union Telegraph Co. speaks for itself. The company having granted increases in many other places, felt it was discriminating against part of its employes, hence this circular, making a general increase to all its managers and operators, the same instructions being sent to all managers. It goes without saying that the employes appreciate this increase, and it is sure to be felt in the betterment of the service and indirectly the patrons of the company will benefit by it, as it will stimulate a desire on the part of thousands of employes to give better service, and its good effect will be felt in this way.

This does not mean that the employes do not already try to give good service, but this action on the part of the company cannot help but have a stimulating effect on the managers and operators everywhere in the performance of their duties and a desire to do everything to improve the service.

A Delightful Smoker.

At the home of his parents, Hon. and Mrs. Frank Clark, Frank Clark, Jr., tendered an informal smoker to members of the A. T O Fraternity of the University of the State of Florida recently, which was enjoyed to the fullest extent. During the evening punch, cigars and delicious refreshments of sandwiches, olives and pickles, were served. Those present are under obligations to the clever young host for the evening's hospitable entertainment.

IRVING SIMPSON KILLED BY HUGHES

Saturday Afternoon Tragedy at Kissimmee Cost Man His Life.

MAN CLAIMED SELF-DEFENSE

Hughes Immediately Surrendered to Await Investigation of Coroner's Jury—Man Well Known Here—Was Capturer of John Kelly, An Outlaw.

The following dispatch, dated from Kissimmee, in Sunday's Times-Union, will prove of interest to readers of The Sun:

"Irving Simpson, son of Capt. J. A. Simpson, formerly of this place, but a resident of Dania, Fla., was shot by John Hughes, a fisherman, late this afternoon and instantly killed, the entire load of a shotgun tearing away part of his head. Hughes immediately surrendered to await the coroner's investigation, claiming self defense and saying that Simpson came upon him and some men at work on the public dock and began firing, shooting at him twice with a Winchester rifle, hitting Hughes' hand with one shot before he fired in self-defense; that Simpson had been drinking, having shot at some negroes near the dock before the trouble with Hughes."

John Hughes resided in this city for several years, and is well known here and in this vicinity. He is a brother of Attorney Frank Hughes, who also resided here, and who met his death by jumping from a steamer at Philadelphia a number of years ago.

John Hughes has quite a personal local history. Several years ago, in a fracas in this city, he was shot in the arm, which necessitated the amputation of that member. Afterward, when this entire country was wrought up by Harmon Murray, the notorious negro desperado, and his gang, and searching parties were sent out, Hughes is the individual who captured John Kelly, white, a member of the Murray gang and who was subsequently lynched.

Simpson was also quite popular. He was a student at one time of the University of Florida at Lake City.

In The Mayor's Court.

There were two cases in the municipal court Monday morning, both being charges of fighting, and were as follows:

Bunk Tillman, fighting his wife, $25 and costs or sixty days in jail.

Floyd Johnson, $5 and costs or thirty days in jail.

Neither of the defendants had paid their way to liberty at a late hour Monday afternoon.

AT THE OPERA HOUSE.

Miss Ashton and Her Company Present "East Lynne" Cleverly.

A fair-sized audience greeted Miss Ashton and her company in "East Lynne" at the opera house last night.

This play, which is a beautiful but pathetic story, was cleverly presented in the leading roles, Miss Ashton being very good as Lady Isabel and Madame Vine. Her emotional work demonstrated her talent as an actress, as the part was a very difficult one.

It is to be regretted that the company was not encouraged by a larger attendance.

EFFECT OF THE FOOD LAW.

Driving Many Worthless Catarrh Medicines Out of Existence.

The Pure Food and Drug Law, which went into effect the first of January, has already shown the good that will follow its enforcement.

Many worthless remedies, that have been advertised for the cure of catarrh, a disease that is universally prevalent, have been driven out of existence by the Pure Food Law.

The effect of this is to increase the sale of remedies that are valuable and that fulfill the provisions of the law. Hyomei, for example, is meeting with a larger sale than ever before, and J. W. McCollum & Co. still sell it under a guarantee that it will cure catarrh or the money will be refunded. Hyomei is a scientific treatment that is recommended by the best physicians. It cures catarrh without stomach dosing through inhaling medications that go right to the affected spots.

By breathing Hyomei three or four times daily through the neat pocket inhaler that comes with every outfit, its medicated, healing air penetrates to the most remote parts of the nose, throat and lungs, searches out and kills all catarrhal germs, and soothes and heals any irritation in the mucous membrane.

The complete Hyomei outfit costs $1.00, extra bottles if needed, 50c, and is sold by J. W. McCollum & Co. under the guarantee that it will cure or cost nothing.

MELROSE PEOPLE HAD A BIG TIME

George Washington's Birthday Enjoyably Observed.

IMPRESSIVE FLAG RAISING

There Was a Big Dinner at the Town Hall, Followed by Songs and Addresses—The Day One to Be Long Remembered—Personal Notes.

Melrose, Feb. 25.—Washington's Birthday was celebrated in town by the erection in front of the town hall of a fine flag pole and the hoisting thereon of a beautiful national flag measuring 10x15 feet. The town hall was tastefully and appropriately decorated with festoons of red, white and blue bunting and large and small United States flags.

At noon a large crowd had gathered and sat down in the town hall to a bountiful basket dinner.

Promptly at 3 p. m. the audience was called to order with a short address by the mayor, H. von Noszky, followed by prayer by Rev. B. Mosele. Next in order was the presentation of the flag to the town by Mr. M. E. Mullin on behalf of the citizens, Mr. Mullin being the originator of the idea to use a surplus from last Fourth of July celebration fund for the purchase of a national flag for Melrose, and through whose energy the matter became an accomplished fact with Friday's celebration.

After the acceptance of the gift by the mayor the flag was raised to the top of the pole, while the audience sang "The Star Spangled Banner," after which the following program was rendered:

Speech by Rev. Julian.
Recitation—Australia McMillan.
Speech—W. E. Baker.
Song—Marie Mizelle and Rev. G. Gomez.
Speech—Rev. Mr. Sistrunk.
Song, "Columbia, the Gem of the Ocean"—School Children.
Speech—E. J. Whitehead.
Recitation—Marion Whitney.
Recitation—Theresa Yearwood.
"America"—By All.

Much credit is due to W. H. Lee and his able corps of assistants for the wonderful erection of the immense pole with the crude appliances at hand. The pole stands 101½ feet above ground to the top of the weather-vane and 105 feet to the top of it. The beautiful vane consists of the four letters, showing the points of the compass, surmounted by a 40-inch copper-gilt arrow, the gift of the ladies of Melrose.

Mrs. H. W. Hamlyn entertained a number of friends at pivot euchre on Tuesday night, six tables being filled. After a most entertaining game, delicious refreshments ordered from Jacksonville were served, after which handsome prizes were awarded to the winners of the highest scores.

The social given at the ladies' hall on Friday night was as usual a very pleasant affair. At their next regular meeting, March 1st, Mrs. E. J. Whitehead will read a paper on "Character-Building." A free public lecture is announced for March 4th by Rev. L. E. Goodwin.

M. L. McRae of McRae, Ga., paid a short visit to his brother, L. Q. McRae, during the week.

Testimonials Received Daily Telling of the Wonderful Cures of Torturing Disfiguring Humors of the Skin, Scalp and Blood.

CURES ARE SPEEDY AND PERMANENT

"I was afflicted with eczema on my face and hands and I used medical treatment for two weeks, but to no avail. I then commenced using the Cuticura Remedies, and after using two cakes of Cuticura Soap and one box of Cuticura Ointment for a little over a month I was entirely cured, Miss Jennie B. Chamberlain, Marcy, R. F. D. No. 1, N. Y., May 28th, 1906."

ANOTHER CURE

"I suffered for more than ten years with a skin disease. Sores were on my legs and they made me sick. Physicians were called in to attend to me, but they did me no good. Nothing seemed to do me any good until one day one of my friends advised me to try the Cuticura Remedies and which I did, and in less than four weeks I was made well. I used the Complete Treatment, consisting of Cuticura Soap, Cuticura Ointment and Cuticura Pills and I found them all very successful. My friends were surprised at such a quick cure, and I am glad to tell everybody what the Cuticura Remedies have done for me. Bertha Simpson, Alviso, Calif., May 24, 1906."

AND STILL ANOTHER

"My two children had the eczema, the first one had it for five months all over the body and we had two doctors treat her. I saw the Cuticura Remedies advertised and bought the Cuticura Soap and Cuticura Ointment and Cuticura Pills, and after using them it wasn't but a short while before she was cured. My other child was also afflicted and the Cuticura Remedies cured her also. We think the Cuticura Remedies the best on the market, and we always keep the Cuticura Soap and Cuticura Ointment on hand. Collision on the M. & O. Road.

Tuscaloosa, Ala., Feb. 25.—News has reached here from Pearson, Ala., a station a few miles south of this point, on the Mobile and Ohio railroad, of a rear-end collision, which occurred there. From what can be learned, it seems that there were two sections of a through freight on, one a few minutes behind the other, and that the front section met with a slight accident, losing some time. Just as this section steamed into the town of Pearson, the second section, thinking the track was clear, crashed into the rear of the first section, tearing up the rear cars and badly injuring the engineer, M. W. Fraker, and Fireman J. W. Melcher. The latter died here.

I fully believe Electric Bitters will cure me permanently, for it has al- [illegible] liver and bladder

PROHIBITION WAVE DOMINANT.

Alabama Legislature Is Swayed by the Sentiment.

Montgomery, Ala., Feb. 25.—The dominance of the temperance sentiment in the present legislature is everywhere noticeable, and the man who goes out against it is sure to be laid low in the end. The senate spent a lot of time Thursday in talking about the local option bill and then passed it by a vote of 29 to 1. Just before it had passed by a large vote, a local option dispensary bill for the whole state by almost as large a vote.

The house committee has now voted to report favorably, the Moody dispensary bill, the one passed by the senate, and as the house is larger temperance than the senate in fact, it will go right through. This will give two bills that in their workings will make it mighty hard to keep the sale of liquors by open saloons from being pushed out of most of the counties.

In addition to these bills there have been passed a large number of county dispensary measures that have the effect of eliminating the open saloon. Among these are Colbert and Madison. In the former the only places where it will be sold will be Sheffield, Tuscumbia, Leighton and Cherokee; in the latter only at Huntsville.

There is also much talk of a movement to try to get it out of the large counties like Montgomery and Jefferson.

Men Past Sixty in Danger.

More than half mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

Said Robbery Was Just a Joke.

Huntsville, Ala., Feb. 25.—Jim Griffin, white, was convicted in the circuit court of the charge of highrobbery, and was sentenced by Judge D. W. Speake to a term of ten years in the penitentiary. Griffin was accused of holding up and robbing Rev. Petter Baker in this city a few months ago. He got $18 from the preacher, and had only spent $2 when the police captured him. Griffin contended all along the affair was a joke, but the fact that he had spent some of the money convicted him.

Neighbors Got Fooled.

"I was literally coughing myself to death, and had become too weak to leave my bed, and neighbors predicted that I would never leave it alone; but they got fooled, for thanks be to God, I was induced to try Dr. King's New Discovery. DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. SHORT TALKS BY L. T. COOPER.

THE STOMACH.

My but peoples' stomachs do cause a lot of trouble. I offered to wager some doctors in St. Paul, Minn., that one half of all sickness is caused by the stomach. After I assured them that my medicine did nothing but put the stomach in shape and they had spent a day listening to what people who called on me had to say, they had to agree with me. They heard people come in and tell me that for years they had been near the grave with Bright's disease, or lung trouble, or kidney complaint and all manner of diseases and that the New Discovery had cured them. Of course these people were mistaken, it was nothing but their stomachs. As a matter of fact when the stomach gives out most everything else is thrown out of order too.

C. H. POWELL.

When a person feels tired and dull and despondent, is loosing flesh and don't sleep well, has a poor memory, a bad taste in the mouth, a coated tongue, and other troubles he's liable to believe a lot of things are the matter with him. Nine chances to one it's his stomach. I've seen Cooper's New Discovery bring back health to too many people in just this shape to believe anything else. Here's a letter about it:

"I suffered for a long time without knowing just what was the matter with me. I seldom felt like eating. I lost greatly in weight. My digestion was extremely poor and when I did eat I invariably suffered afterward. I was constipated and frequently suffered from nerve racking, violent headaches. When I heard of what the Cooper remedies were doing for others I resolved to try them."

"Relief came with the first bottle. My appetite and digestion improved rapidly. I am no longer constipated nor do I have those dreadful headaches. I sleep well and am gaining flesh." C. H. Powell, 13 Harrison Addition. Duluth, Minn.

We are selling immense quantities of these medicines and our customers express great satisfaction.

VALUATION OF RAILROADS.

Our Washington correspondent says it looks now as though the President were doing through executive order what he failed to do through legislative enactment, and that is to get an actual valuation of the railroad properties of the United States, without which it is hard to enact intelligent rate legislation or railroad legislation of any other sort. The provision for a valuation of the real property of the railroads was incorporated in the Newlands bill, that never got out of committee, and in the LaFollette resolution that never became effective. This valuation has been urged by various "enemies," so-called, of the railroads. It is rather strange that this legislation is never pushed by any but the enemies of the railroads. It would seem that the real valuation of railroad properties was a very harmless and simple question, but whenever a public man suggests it he is immediately set down as an enemy of the roads.

The LaFollette bill was to have been reported out of the Senate Committee last week, but though a day was set for a discussion and there were enough members in the room at one time or another to form a quorum, there were never enough there for the purpose at one time, and the matter went by default. However, some light was thrown on the situation by the fact that a letter was received by the committee in response to a request made by the Interstate Commerce Commission, saying that the commission had had been in favor of such a valuation for some years past, and that it had made the recommendation in its report year after year and had only omitted it this year owing to the fact that there were so many other demands made on it that it did not think it could do the work. But the President had directed the committee to make the investigation, and if it is not done through Congressional action it will be done by the commission acting under the President's orders. The time consumed in the work will be considerable, and the work will cost something. If the job is spread out over two or three years it will cost in the neighborhood of a million and a quarter, but if it is done in less time it will cost proportionately more. But whichever way it is done, the work is in a fair way of accomplishment, and afterward there will be in possession of the government data on which may be based rate legislation that will really be effective.

John Collins of The Tallahassee True Democrat appears to have won something of a victory. For months past he has been proddin the Internal Improvement Board to publish an itemized statement of their receipts and expenditures, and a few weeks ago such a statement was published. Among the items of disbursement appeared some $19,000 paid to various lawyers for salaries and special services rendered. Now the papers, including The Pensacola Journal and others heretofore friendly to the administration, are excoriating the Internal Improvement Board for recklessness and extravagance in paying such large attorney's fees.—Punta Gorda Herald.

It is claimed that Governor Broward's dredges are doing good work. If they are half as successful in digging the ditch as the effort to "drain" the treasury of the Internal Improvement Fund, the job will soon be accomplished.

Hon. Henry A. DeLand of Fairport, N. Y., founder of the town of DeLand, as well as DeLand Academy and DeLand University, was a guest of the John B. Stetson University last week. It was on Mr. DeLand's own motion that the trustees changed the name of the school to Stetson University. He has been royally welcomed to the town and shown every courtesy within the power of the citizens.

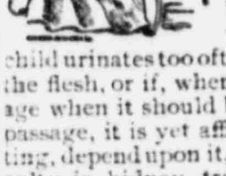
Governor Broward has appointed W. J. Lewis of Marion county Inspector of State Convicts to fill the vacancy caused by the election of N. A. Blitch as railroad commissioner. The other three hundred applicants for the position can now settle down to their regular occupation.

Well Known Financier Dead.

New Orleans, Feb. 25—George H. Whitney, one of the best known financiers in the South, died at his home here early Saturday following a stroke of appoplexy. Last evening he was in his usual good health and enjoyed a hearty dinner before retiring for the night. Early this morning he was suddenly taken ill. Physicians were hastily summoned but their services were of no avail.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.



Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

RHEUMATISM
AN ACID BLOOD POISON

Rheumatism is an acid blood poison, and the causes that produce it are often silently accumulating in the system for years. Poor digestion, stomach troubles, weak kidneys, torpid liver, and a general inactive condition of the system leaves the refuse and waste matter, which should be carried off, to sour and form uric acid, which is absorbed into the blood. When the blood is in this acid-charged condition, it deposits the poisons and irritating particles with which it is loaded in the muscles, nerves, joints and bones. Then Rheumatism gets possession of the system, and life is made miserable by its pains, aches and discomforts. The changing of the weather, exposure to cold and dampness, etc., always increase the trouble, and so severe does the pain become that quick relief must be had. A good liniment or plaster is often helpful, but it should be remembered that relief from such treatment is only temporary, because the trouble is in the blood and cannot be removed by external applications. S. S. S. cures Rheumatism by ridding the blood of the cause. It goes down into the circulation and by invigorating and purifying the blood of the acid-poison and sending a stream of fresh, rich blood to all parts, relieves the pain, reduces the inflammation and permanently cures this painful disease. S. S. S. is the only safe treatment for Rheumatism, because it does not contain a particle of mineral in any form to damage the system. Book on Rheumatism and any medical advice desired sent free. HE GAINED HIS POINT.

To Do It the Actor Spoiled the Play and Lost His Position.

An American actress who had toured in England was telling her experiences and related an incident that amused her. She said:

"In a play produced in the provinces there is a scene in which the hero strikes the villain, who slinks away without seeking to defend himself. One night in a large manufacturing town the young fellow who played the deep dyed scoundrel remarked to the leading man before the curtain rose:

"'I say, old chap, I've got my fiancee out in front tonight with her father and mother. Now, of course they don't know anything about our business, and I'm afraid it would rather hurt me with them if I received a blow and got away in the usual cowardly fashion. So, dear old chap, can't you omit the blow tonight?'

"'But, my boy, the management will fine me 2 shillings!'

"'Well, I'll pay the fine.'

"'Oh, yes! That's all very well for you, but what do I get out of it? Nothing but a bad name with the powers that be.'

"'Oh, well, I'll give you 2 shillings extra, or, better yet, you hit me as usual, and I'll hit back! They'll fine me, not you, and I'll give you the 2 shillings besides. You see how I'm situated. I shouldn't like the girl to mix me up with the character I play. Outsiders are so funny that way.'

"So the compact was made, and that night when the hero cried, 'Sir Daniel Deepwater'—or something of that sort—'base offspring of a noble race, take that!' Sir Daniel not only 'took that,' but gave it back with such force that 'the pit in cheers rose at him,' including his relatives to be by marriage, and he walked off the stage in triumph.

"I am sorry to add he lost his situation, but he gained his point."

A Valuable Lesson.

"Six years ago I learned a valuable lesson," writes John Pleasant of Magnolia, Ind. "I then began taking Dr. King's New Life Pills, and the longer I take them the better I find them" They please everybody. Guaranteed at all druggists'. 25c.

UNPROFITABLE FEEDING

Intelligent stock raisers know that a certain amount of feed is necessary to keep an animal alive. They might feed that amount as long as it lives, and it would never gain a pound.

There is no profit in that kind of feeding. The kind that pays is the kind that builds flesh rapidly. If it takes twenty pounds of food each day to keep a sheep alive, twenty-five pounds a day will make it gain flesh. It's the extra five that brings the profit. The first five pounds amounts to nothing, nor does the second or third or fourth five pounds.

It's the same way with advertising. You have to do a certain amount to overcome the resistance of the public.

You have to do a certain amount of advertising to make them wake up to the fact that you are in business at all. You have to pay a certain amount to keep your advertising alive. What you pay above that amount brings profit.

Some advertisers fail because they do not use enough space. They use barely enough or sometimes not quite enough to make the advertising self sustaining. A little bit more would make it profitable. It is better to advertise a little too much than not quite enough.—Charles Austin Bates.

Some of our advertisers could enlarge their space with profit.

LEVEE BREAKS BELOW ORLEANS

Vast Number Are In Danger of Being Submerged.

New Orleans, La., Feb. 25.—A crevasse, which unless closed immediately will cause overflow water to back up as far as Gretna, a town opposite New Orleans, opened Friday 25 miles below here in the west bank levee of the Mississippi river. It is the first serious break in Louisiana since the high water began.

No lives are endangered, but a large area of rice, sugar and truck farming land will be inundated to a depth of eight feet in a few days.

Among the plantations threatened is that of former Governor Warmouth, of Louisiana.

The tracks of the Grand Isle railroad are also being washed out.

The break first appeared after dark, shortly following an official inspection in which the levee had appeared safe. Crawfish are believed to have cut through the embankment. Five hundred men will be put to work in an effort to close the crevasse.

Hit By Brick; Badly Injured.

Atlanta, Feb. 25.—John G. Gleason, traveling freight agent of the Western and Atlantic road, whose home is on Lucile avenue, in West End, was struck by a brick, tossed into a car on the Georgia road, between Covington and Conyers, Ga., late Friday night, and badly hurt. He was cut on the head, just outside of his left eye, and was knocked unconscious, it being several hours before he regained his senses. When he reached Atlanta he was sent to his home, where he was given all possible attention, and early in the morning it was reported that the injury while painful, was not believed to be serious.

This remedy contains nothing injurious and mothers give it to little ones with a feeling of perfect security. Sold by all druggists.

Havana, Feb. 21.—The representatives of Senors Zayas and Gomez, the rival liberal candidates for the presidency have failed to reach an agreement relative to their differences and the trouble will now be referred to the executive committee of the old national assembly or provincial and municipal corporations. Many believe Gomez will break with his party and form a combination with the old moderates with whom he was previously identified, although this would cost him the sympathy of many liberals.

ROADS TO FIGHT 2-CENT RATE

Lines Operating in Missouri Get Together for Contest.

St. Louis, Feb. 25.—A preliminary meeting of railroad men representing a number of the roads in Missouri, was held in the office of President A. J. Davidson, of the 'Frisco system with the view of instituting concentrated action against the new 2-cent rate law just passed by the legislature.

No definite course was agreed on, owing to the absence of representatives of several roads from the conference, and the meeting resolved into an informal discussion of the effect the new law will probably have on passenger service generally.

It was stated that it is likely a conference of president and general counsels of the various roads in Missouri will be called at an early day, and a plan of action will be outlined.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. *Why* the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

An Odd Animal Community.

Natural enemies of the animal world are sometimes found living together in extraordinary communities. J. G. Millais in a volume on animals quotes this experience of an observer: "On one occasion when ferreting I bolted a fox, a cat, a stoat and several rabbits and rats out of the same earth. The fox bolted first, after giving the ferret a nip across the back, from the effects of which it died an hour later. Next came the stoat and then the cat, both of which I shot. Then followed the rabbits and rats promiscuously. It was a large burrow on the bank of a deep, dry watercourse and often held a fox when I ferreted it afterward."

Talking Through a Human Body.

To talk through a human body or a row of human bodies, for the matter of that, is one of the weirdest of the electrician's feats. If a telephone wire be severed and the two ends be held by a person, one in each hand, but far apart, it is quite possible for two individuals to carry on a conversation through the body of the medium as readily and as distinctly as if the line had been properly connected.
